

## Install and Use BuzzStickers (Android)

Sorenson BuzzStickers are animated ASL “stickers” for use with Android’s Messages app. Similar in use to emoticons, BuzzStickers are ASL signs and expressions that you can send as part of a text message. Installing and using BuzzStickers is easy.

Step 1. Open Play Store and search for “**BuzzStickers**” as shown below.

Step 2. Tap the **Install** button to begin downloading the app as shown below.

Step 3. Wait for the **Open** button to appear as shown below.

After you have installed the BuzzStickers app, you have two options for using the app. First, you can just open the app itself from the screen above to select a BuzzSticker. You then choose the app into which you want to paste the sticker. Usually, that's the Messages app. Second, you can send a BuzzSticker from within the Messages app.

Follow **Steps 4 through 9** below to send a BuzzStickers directly from the app itself.

Step 4. Tap the **Open** button to display the BuzzStickers app screen as shown below.

The BuzzStickers app shows a scrolling list of animated (GIF) icons that represent some common ASL signs. The meaning of each sign is shown in text below the icon.

Step 5. Select and tap one of the [BuzzSticker icons](#) to open the pop-up menu shown below.

The *Send GIF Using* pop-up menu lets you choose which app will receive a pasted copy of the sticker that you selected from the BuzzStickers app. Although the Messages app is the most commonly-used app for stickers, you can paste stickers into other apps as shown.

Step 6. To add a BuzzSticker to a text message, tap the [Messages](#) icon to open the dialog shown below.

The *Select contact to share* dialog shown above appears so that you can choose whether you want to send the selected BuzzSticker to an **existing contact** or a **new contact**.

Step 7. For example, select the [New contact](#) option and then tap the [OK](#) button to proceed.

Step 8. The New Message screen of the Messages app will then appear. The selected **BuzzStickers** icon will be pasted into the body of the new message as shown below.

Because you selected to send the sticker to a new contact, you must enter a phone number in the **Recipient** field. You can also enter some text if you like before tapping the **Send** button.

Step 9. When ready, tap the **Send** button to send the BuzzSticker as shown below.

You're finished! That's how to send a text message by opening the BuzzStickers app first.

Follow **Steps 10 through 16** below to send a BuzzSticker from within the Messages app.

Step 10. To add a BuzzSticker to a text message, tap the [Messages](#) app icon as shown below.

Step 11. First, open the Contacts list and then tap on a contact to open it as shown below.

Step 12. Tap the **Manage** button to open the screen shown below.

Step 13. Tap the  icon to open the pop-up menu shown below.

The pop-up menu contains several buttons for elements you can add to your text message. The **Image** button will access the BuzzStickers app.

Step 14. Tap the **Image** button to open the BuzzStickers app as shown below.

The BuzzStickers app shows a scrolling list of animated (GIF) icons that represent some common ASL signs. The meaning of each sign is shown in text below the icon.

Step 15. Tap the desired **BuzzStickers icon** to add it to the text message as shown below.

The BuzzSticker that you selected has been pasted into the body of the text message. You can also enter some text if you like before tapping the **Send** button.

Step 16. When ready, tap the **Send** button to send the BuzzSticker to the selected contact.

You're finished! That's how to send a BuzzSticker in a message using the Messages app.
